

THE WOUND MEETING 2025 SEOUL

April 11(Fri)–12(Sat), 2025

Songae Campus,
The Catholic University of Korea,
Seoul, Korea

Welcome Message

Dear Colleagues around the world

We are delighted to announce that The Wound Meeting Seoul 2025 will once again take place this year, following the success of the 2024 event.

At The Wound Meeting Seoul 2024, we were privileged to host outstanding lectures by world-renowned speakers in the field of wound care. Their contributions greatly helped advance wound-related studies. Furthermore, more than 100 attendees from countries like Finland, the U.S.A., Singapore, Taiwan, and Japan joined the conference, making it even more vibrant and engaging.

For The Wound Meeting Seoul 2025, we are excited to present an exceptional lineup of speakers, including Korea's top experts, along with Professor Kyunghye Park's Opening Session, keynote addresses by Dr. Harikrishna K.R. Nair from Malaysia and Dr. Amit Gefen from Israel. In addition, we have invited other distinguished researchers from various countries to deliver insightful lectures.

We have also planned a hands-on session, providing an opportunity to discuss clinical tips and their practical applications in real-world scenarios.

We hope this conference will serve as a platform for rich academic exchange and meaningful connections in the beautiful city of Seoul, as we continue our journey to establish it as a leading hub for wound research.

Thank you

Young Cheon Na, MD, PhD
President of the Korean Wound Management Society
